

ROBERTSON CHARTER SCHOOLS 2020 AHERA ANNUAL NOTIFICATION

The following information is published to comply with the requirements of 40CFR 763 Subpart E for asbestos-containing materials in schools. This regulation, commonly referred to as the "AHERA" regulation, requires local education agencies, such as the Robertson Charter School Corporation, to perform certain tasks in regards to the presence and control of asbestos-containing materials in the buildings under the jurisdiction of the local education agency.

These include but are not limited to:

1. Developing an asbestos management plan which is designed to outline procedures and guidelines for the inspection, reinspection, and periodic surveillance of asbestos-containing materials that are present in the buildings.
2. Provide awareness training and additional training to selected school employees.
3. Notify annually all workers and occupants, or their legal guardians, parent teacher organizations, and collective bargaining organizations of the availability and location of the asbestos management plan for review, the planned abatement of asbestos-containing materials and the completion of asbestos abatement projects.

This notification is to advise all patrons, occupants, or their legal guardians, collective bargaining organizations and parent teacher organizations, that the asbestos management plan required under this act is available for review upon request. A copy of the asbestos management plan is available at each building's Administration Office and at the Main Administrative Office, located at 1900 East Eldorado Street, Decatur, Illinois, telephone # 217-428-7072. The asbestos management plan can be viewed by any person during normal business hours. Interested parties wishing to inquire about the hours of availability may call the aforementioned number.

The asbestos management plan provides information regarding inspections, response actions, post response action activities, including periodic re-inspections and surveillances that are planned or in progress.

Listed is a brief description of asbestos work that has been completed in our school buildings this year and also any future work.
